London Advices Show Declines in American Stocks.

English Traders Apprehensive of an Outbreak in South Africa-Activity in the Opening Wall Street Deals Accompanied by Varying Prices. Local Tractions Are Fairly Strong

NEW YORK, Aug. 29 .- The stock market opened active and showing irregular There were noteworthy declines in the London market for American stocks and the general weakness there was reported owing to apprehensions of an outbreak of hostilities in South Africa. London houses were sellers at the opening of internationally listed stocks. Aside from the influence derived from the disposition of foreign market there was some uneasi-ness in regard to the monetary situation, owing to the slight advance made in the

rates on call yesterday.

There was nothing otherwise apart from the favorable reports of a number of rall-roads that engaged attention. The local traction stocks were fairly strong and actraction stocks were larry strong and ac-tive and slight advances were noted in Northern Pacific Southern Railway, pre-ferred, the Hocking Valley issues, and Continental Tobacco. On the other hand, the Atchison shares, the grangers and Southern Pacific were all heavy. American Steel and Wire had a sharp advance on the reports that the listing committee of the Stock Exchange was disposed to regard favorably the company's application to have its securities admitted to regular dealings on the Exchange American To-bacco was active and reactionary. The Republic Steel issues advanced sharply on the declaration of initial dividend on the preferred yesterday afternoon. Irregular and insignificant changes were general throughout the market.

There was a decline of half a point or more in many securities during the first hour this morning, and evidences of bear members of the New York Exchange, hour this morning, and evidences of bear pressure and some liquidation. Later in the day a raily occurred which regained the loases in many cases. There was not, however, during the forencon much enthusiasm on the bull side. The market is apparently in a hearinging mood, and it was thought that reasonable and the second se that no particular movement would probably take place during the day. The outlook is for an advance when the market moves in either direction, stocks being most stub-bornly held at all times, even when the bear pressure is most strong.

American Steel and Wire, common, was strong this morning and seems likely to solve advance on the practical certainty that the Oct. securities of this company will be admitted to the flated department of the Stock Exchange. It is realized that when a company is willing to furnish the Exchange such full information regarding its affairs as has undoubtedly been demanded in this case, it must be in a most prosperous con-dition, with nothing-to be ashamed of. This step of the American Steel and Wire Com-pany should be followed by the other industrial concerns that have good records to show. The effect on the scourities of this group would be immensely beneficial. And on the other hand unless a company s willing to let the world know what it is toing people cannot be blamed for letting its stock severely alone

In this connection it is interesting to notice the facts that are available regard-ing the Republic Iron and Steel securities, which have been admitted to the unlisted ang the Republic Iron and Sec.

which have been admitted to the unlisted department of the Exchange. The company has declared a quarterly dividend of 12-4 per cent on the preferred stock. A director of the company is authority for the statement that the present earnings of the statement that the present earnings of the statement are at the rate of \$5,000,000 yearly.

Thompson: several boxes of dry goods from A. A. Gaeler; a barrel of flour from Behren's Bakery, and a large amount of dry ren's Bakery, and a large amount of dry ren's Bakery, and a large from Willett & preferred for a year. The preferred stock assued is \$20,500,000 on which the yearly dividend would be a trifle less than \$1,500,000, and the common stock is \$26,500,000 on which 14 per cent would about make up the balance of the \$5,000,000 carnings. This concern owns thirty rolling mills and six mines and its business is occupying every one of its mills to its fullest capacity.

Missourt, Kansas and Texas was again very strong this morning, getting as high as 44 1-2 early in the day. The stock has been one of the features of the recent mar-ket. Mobile and Ohio continued strong. The Street heard the rumor that the line is to be absorbed by an Eastern trunk rail-

It is stated on excellent authority that a dividend of 3 per cent is to be declared on Chicago and Eastern Illinois, payable in This will make the yearly rate 6 per cent. The line is earning much more than this in recent months.

The grangers were neglected early in the day, with the exception of Atchison, pre-ferred, which declined to below 66 on a continuance of the realizing that has been taking place recently. The net carnings of St. Paul for the month of July show about \$250,000 increase, and yet with such a tremendous gain one of the bear papers has the nudacity to speak of the "disappointing statement." This rate of net increase if kept up for the year, and there is no reason now fee believing that it will not, would insure the earning of 16 or more per cent

The increase in the gross earnings of the Ontario and Western for July was \$78,000 and the increase in the net \$51,665.

JOY IN THE MORGAN KENNELS. A Prize Collie Gives Birth to Twenty-Seven Puppies.

HIGHLAND FALLS, N. Y., Aug. 29 .-Robert Armstrong, the keeper of J. Pierpont Morgan's Cragston Kennels, was the most surprised man north of Mott Haven Sunday morning. In making the round of his charges' quarters he found twentyseven pupples lying beside an old prize collie in one of the pens, which weren't there when he had closed the kennels the night before. Armstrong rubbed his eyes and pricked himself to see that he was awake, and then began to count them.

He picked them up carefully, one at a time and laid them down in another place, and then carried them a second time best. and then carted them a second time back into the original place, to be sure of the number. There were surely twenty-seven of them, all sturdy and likely to live. Arm-

strong was overcome with wonderment and leaned weakly against the building All the other dogs take the liveliest in-terest in the pupples when an opportunity presents itself, and nose and paw the little

ones over as they lie asleep.

Armstrong, who is supposed to know all sorts of canine lore, said be never had beard of so many puppies being born at once. The only other case that approached this was one he had heard of in Scotland. He says every one is a coming champion.

Mr. Morgan has been informed of the wholesale addition to his kennels. He has probably the finest lot of collie dogs in America. Nearly all of them have taken first prizes repeatedly. Several of them are valued as high as \$700 apiece. Among the more valuable dogs in the Cragston kennels are Ornament, Bufford Ormonde, Sefton Hero, Barwell, and Lady Christo-pher.

"I think my father must have fallen and injured his knee while hunting and had to wait until assistance came to him," said Mrs. Hewett to a Times' reporter today. "He suffered from an old wound in the knee received during the civil war and when this knee fails him he becomes quite helpless. I am confident, however, that he almost any hour telling me that he is safe." has been found. I am expecting

WILL WOMEN RIDING BIKES GIVE BONDS?

In Illinois Man Who Was Run Over Wants Them Bonded to Keep the Peace.

Shall women bicyclists be licensed and compelled to carry bonds to keep the peace? This is a question which is receiving considerable attention from local wheelmen and lawmakers of Chicago just now. This movement was started in Kenoska, where the erratic course of a wheel steered by a woman is said to have been responsible for serious injury to Walter Carrell. He is convinced by his experience that the public should be guarded against a similar accident, and has drawn an ordinance to that end and proposes presenting it to the city council. The public should be guarded by our experience and by the experience of those who know and drink Heurich's that they should call for Maerzen, Senate, and Lager (whichever brand is their favorite) instead of a "dark" or a "light" beer, which might mean any old inferior beer instead of Heurich's. For a case of Heurich's in bottles 'phone six-thirty-four, Arlington Bottling Co.

HAGERSTOWN, Md., Aug. 28.-One hears

great deal of politics in Hagerstown just at this time. Leaders of both parties proon both sides there is an honest effort to make a strong ticket as it is well undermake a strong ticket as it is well under-stood that the struggle will be close. It is likely that the county is Republican by a small majority on a straight vote, but there is much independence in voting and there is a purchasable vote estimated by the politicians at near 2,000. Much of the campaign money is used in keeping the party vote straight and the negro vote. which is large in Hagerstown, is making increased demands upon the Republican committee. The two hold-over county commissioners are Democrata, and three are to be elected. In this the Democrats have the advantage, as it is only necessary to elect one to have the board. It goes McComas Sanitarium.
